Muhammad Kinan Ahsan

Junior Front-End Web Developer & Software Engineer

ℹ️ About Me

A junior front-end web developer, having the fundamental knowledge and skills necessary for basic front-end web development. Having experiences in making simple websites, such as landing pages, company profiles, and portfolio. Able to make front-end websites, simple python programs and apps, and simple graphic designs. Also interested in software engineering in general.

Skills

HTML
- Elements & Attributes
- IDs & Classes
- Linking
- Inline & Internal Styles
- Inline Event Handlers
- Internal Scripts
- Metadata

CSS

- Selectors
- Properties & Values
- Box Model
- Flex Layout
- Media Queries
- Variables
- Bootstrap

JavaScript

- Data Types & Variables
- Objects & JSON
- BOM & DOM
- Event Handlers
- Conditional Statements
- Loops & Iterations
- Functions
- Fetch

PHP

- Get Request Parameters
- Access Databases
- Loops
- Echo
- CRUD Concept
- SQL Basics & Queries

Python

- Data Types & Variables
- Classes & Objects
- Expressions
- Operators
- Conditional Statements
- Loops & Iterations
- Functions & Lambda
- File Management
- Module Importing
- OS (Library)
- Tkinter
- Requests
- Flask

Flask

- App Initialization
- Request Handling
- Error Handling
- File Receive
- Redirecting

VS Code

- Code Editor
- Extensions
- Terminal
- Explorer
- Command Palette

Command Line

- Commands & Arguments
- Opening Files

Git

- Repository Initialization
- Add & Commit
- Adding Remote
- Pushing to Remote
